

Gadsden-Etowah Long Range Transportation Plan

Public Information Meeting

The Gadsden-Etowah Metropolitan Planning Organization (GEMPO) has initiated efforts to develop a Long Range Transportation Plan (LRTP) to meet the area's transportation needs over the next 25 years. Residents of the MPO area, as well as members of private and public agencies are invited to attend public information meetings to be held as follows:

Date	Location	Address	Time
Thursday August 27, 2009	Conference Room Chamber of Commerce	1 Commerce Square Gadsden	10:00 AM to 2:00 PM
Thursday August 27, 2009	ALACO Room Senior Activity Center	623 Broad Street Gadsden	4:30 PM to 7:00 PM

Each meeting will be conducted in an open house format to allow discussion of transportation issues and needs one-on-one with the MPO staff and consultant. In addition, brief presentations will be made 30 minutes after the meeting starting time and each hour thereafter. Please come by any time during the course of the meeting and provide us your input.

Come and share your ideas or concerns about transportation and help to shape the Gadsden-Etowah transportation system. For more information, contact: Meinrad Tabengwa, GEMPO, at (256) 549-4519 or by e-mail at mtabengwa@cityofgadsden.com
